

# FW SERIES

CONCEALED FASTENER WALL & SOFFIT

The FW Series wall and soffit system is an attractive, cost-effective flush metal panel. Its interlocking legs conceal fasteners and improve strength and flatness.

This durable system combines aesthetic appeal with the quality assurance of IMETCO metal products in an easy-to-install panel system that is ideal for walls, mansards and soffits.

FW Series panels are factory fabricated to IMETCO's legendary standard of quality, and backed by unparalleled service and support.

## Design Characteristics

- Interlocking seams conceal fasteners
- Ideal for walls and soffits
- Install over solid substrate with underlayment, or over hat sections
